**THE INTERGROUP CORPORATION**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(UNAUDITED)**

**1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES**

The consolidated financial statements included herein have been prepared by The InterGroup Corporation ("InterGroup" or the "Company"), without audit, according to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in the consolidated financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes the disclosures that are made are adequate to make the information presented not misleading. Further, the consolidated financial statements reflect, in the opinion of management, all adjustments (which included only normal recurring adjustments) necessary for a fair statement of the financial position, cash flows and results of operations as of and for the periods indicated. It is suggested that these financial statements be read in conjunction with the audited financial statements of InterGroup and the notes therein included in the Company's Annual Report on Form 10-K for the year ended June 30, 2010. The June 30, 2010 Condensed Consolidated Balance Sheet was obtained from the Company's Form 10-K for the year ended June 30, 2010.

The results of operations for the three and six months ended December 31, 2010 are not necessarily indicative of results to be expected for the full fiscal year ending June 30, 2011.

As of December 31, 2010, the Company had the power to vote 80% of the voting shares of Santa Fe Financial Corporation ("Santa Fe"), a public company (OTCBB: SFEF). This percentage includes the power to vote an approximately 4% interest in the common stock in Santa Fe owned by the Company's Chairman and President pursuant to a voting trust agreement entered into on June 30, 1998.

Santa Fe's revenue is primarily generated through the management of its 68.8% owned subsidiary, Portsmouth Square, Inc. ("Portsmouth"), a public company (OTCBB: PRSI). InterGroup also directly owns approximately 11.7% of the common stock of Portsmouth. Portsmouth has a 50.0% limited partnership interest in Justice and serves as one of the two general partners. The other general partner, Evon Corporation ("Evon"), served as the managing general partner until December 1, 2008 at which time Portsmouth assumed the role of managing general partner.

Justice owns a 544-room hotel property located at 750 Kearny Street, San Francisco California, known as the *Hilton San Francisco Financial District* (the "Hotel") and related facilities including a five level underground parking garage. The Hotel is operated by the partnership as a full service Hilton brand hotel pursuant to a Franchise License Agreement with Hilton Hotels Corporation. Justice also has a Management Agreement with Prism Hospitality L.P. ("Prism") to perform the day-to-day management functions of the Hotel.

Justice leased the parking garage to Evon through September 30, 2008. Effective October 1, 2008, Justice and Evon entered into an Installment Sale Agreement whereby Justice purchased all of Evon's right, title, and interest in the remaining term of its lease of the parking garage, which was to expire on November 30, 2010, and other related assets. Justice also agreed to assume Evon's contract with Ace Parking Management, Inc. ("Ace Parking") for the

management of the garage and any other liabilities related to the operation of the garage commencing October 1, 2008. The management agreement with Ace Parking was extended for another 62 months, effective November 1, 2010. The Partnership also leases a day spa on the lobby level to Tru Spa. Portsmouth also receives management fees as a general partner of Justice for its services in overseeing and managing the Partnership's assets. Those fees are eliminated in consolidation.

Due to the temporary closing of the Hotel to undergo major renovations from May 2005 until January 2006 to transition and reposition the Hotel from a Holiday Inn to a Hilton, and the substantial depreciation and amortization expenses resulting from the renovations and operating losses incurred as the Hotel ramped up operations after reopening, Justice has recorded net losses. These losses were anticipated and planned for as part of the Partnership's renovation and repositioning plan for Hotel and management considers those net losses to be temporary. The Hotel has been generating positive cash flows from operations since June 2006 and net income is expected to improve in the future, especially since depreciation and amortization expenses attributable to the renovation will decrease substantially. Despite the significant downturn in the economy, management believes that the revenues expected to be generated from the Hotel, garage and the Partnership's leases will be sufficient to meet all of the Partnership's current and future obligations and financial requirements. Management also believes that there is significant equity in the Hotel to support additional borrowings, if necessary.

In addition to the operations of the Hotel, the Company also generates income from the ownership of real estate. Properties include apartment complexes, commercial real estate, and two single-family houses as strategic investments. The properties are located throughout the United States, but are concentrated in Texas and Southern California. The Company also has investments in unimproved real property. The Company's residential rental properties located in California are managed by a professional third party property management company.

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, "Improving Disclosures About Fair Value Measurements." Effective January 1, 2010, ASU 2010-06 requires the separate disclosure of significant transfers into and out of the Level 1 and Level 2 categories and the reasons for such transfers, and also requires fair value measurement disclosures for each class of assets and liabilities as well as disclosures about valuation techniques and inputs used for recurring and nonrecurring Level 2 and Level 3 fair value measurements. Effective in fiscal years beginning after December 31, 2010, ASU 2010-06 also requires Level 3 disclosure of purchases, sales, issuances and settlements activity on a gross rather than a net basis. These amendments resulted in additional disclosures in the Company's condensed consolidated financial statements.

The *Consolidation Topic of the FASB ASC 810* provides a new accounting provision regarding the consolidation of variable interest entities ("VIEs"). The new accounting provision modifies the existing quantitative guidance used in determining the primary beneficiary of a VIE by requiring entities to qualitatively assess whether an enterprise is a primary beneficiary, based on whether the entity has (i) power over the significant activities of the VIE, and (ii) an obligation to absorb losses or the right to receive benefits that could be potentially significant to the VIE. Additionally, the accounting provision requires an ongoing reconsideration of the primary beneficiary and provides a framework for the events that triggers a reassessment of whether an entity is a VIE. The new accounting update became effective for the Company on July 1, 2010. The adoption of this guidance did not have a material effect on the Company's condensed consolidated financial statements.

The Company has evaluated subsequent events through the date the condensed consolidated financial statements were issued.

**Properties Held for Sale - Discontinued Operations**

Properties are classified as held for sale when management commits to a plan to sell the asset, the asset is available for immediate sale, an active program to locate a buyer has been initiated, the sale of the asset is probable, the sale of the asset is actively marketed and it is unlikely that significant changes to the sale plan will be made or withdrawn. As of December 31, 2010, the Company had two properties classified as held for sale in accordance with ASC Topic 205-20 "Presentation of Financial Statements - Discontinued Operations, which requires that depreciation on these properties be stopped.

During the three and six months ended December 31, 2009, three properties were classified as held for sale. However, since then, one of the properties was no longer considered held for sale. Accordingly, the operations of this property for the three and six months ended December 31, 2009 was reclassified from discontinued operations to continuing operations to conform to current quarter presentation.

Under the provisions of the provisions of ASC Topic 205-20, for properties disposed of during the year or for properties for which the Company actively markets for sale at a price that is reasonable in relation to its market value, the properties are required to be classified as held for sale on the balance sheet and accounted for under discontinued operations in the statement of operations. The revenues and expenses from the operation of these properties have been reclassified from continuing operations for the three and six months ended December 31, 2010 and 2009 and reported as income from discontinued operations in the consolidated statements of operations.

**Earnings Per Share**

Basic income(loss) per share is computed by dividing net income(loss) available to common stockholders by the weighted average number of common shares outstanding. The computation of diluted income(loss) per share is similar to the computation of basic earnings per share except that the weighted-average number of common shares is increased to include the number of additional common shares that would have been outstanding if potential dilutive common shares had been issued. The Company's only potentially dilutive common shares are stock options and restricted stock units. For the three and six months ended December 31, 2010, the Company had a total of 108,668 and 90,944, stock options and restricted stock units, respectively, that were considered potential dilutive common shares. For the three and six months ended December 31, 2009, there were no potentially dilutive common shares as the Company had a net loss from continuing operations.

**NOTE 6 - OTHER INVESTMENTS, NET**

The Company may also invest, with the approval of the Securities Investment Committee and other Company guidelines, in private investment equity funds and other unlisted securities, such as convertible notes through private placements. Those investments in non-marketable securities are carried at cost on the Company's balance sheet as part of other investments, net of other than temporary impairment losses.

As of December 31, 2010 and June 30, 2010, the Company's other investments, net, is comprised of the following:

Type	December 31, 2010	June 30, 2010
Preferred stock - Comstock	\$ 13,231,000	\$ -
Private equity hedge fund	3,172,000	3,712,000
Corporate debt & equity instruments	569,000	2,358,000
Warrants - at fair value	899,000	581,000
	\$ 17,871,000	\$ 6,651,000

On October 20, 2010, as part of a debt restructuring of one of its investments, the Company exchanged approximately \$13,231,000 in notes, convertible notes and debt instruments that it held in Comstock Mining, Inc. ("Comstock" - OTCBB: LODE)) for 13,231 shares (\$1,000 stated value) of newly created 7 1/2% Series A-1 Convertible Preferred Stock (the "A-1 Preferred") of Comstock. Prior to the exchange, those notes and convertible debt instruments had a carrying value of \$1,809,000, net of impairment adjustments. The Company accounted for the transaction as an exchange of its debt securities and recorded the new instruments (A-1 Preferred) received based on their fair value. The Company estimated the fair value of the A-1 Preferred at \$1,000 per share, which was the stated value of the instrument, for a total of \$13,231,000. The fair value of the A-1 Preferred had a similar value to the Series B preferred stock financing (stated value of \$1,000 per share) by which Comstock concurrently raised \$35.7 million in new capital from other investors in October 2010. The Company recorded an unrealized gain of \$11,422,000 related to the preferred stock received as part of the debt restructuring. This unrealized gain is included in the net unrealized gain on other investments in the Company's condensed consolidated statements of operations.

The Company's Chairman and President also exchanged approximately \$7,681,000 in notes and convertible notes held personally by him for 7,681 shares of A-1 Preferred. Together, the Company and Mr. Winfield will constitute all of the holders of the A-1 Preferred.

Each share of A-1 Preferred has a stated value of \$1,000 per share and a liquidation and change of control preference equal to the stated value plus accrued and unpaid dividends. Commencing January 1, 2011, the holders are entitled to semi-annual dividends at a rate of 7.5% per annum, payable in cash,

common stock, preferred stock or any combination of the foregoing, at the election of Comstock. At the holder's election, each share of A-1 Preferred is convertible at a fixed conversion rate (subject to anti-dilution) into 1,536 shares of common stock of Comstock, therefore converting into common stock at a conversion price of \$0.6510. Each share of A-1 Preferred will entitle the holder to vote with the holders of common stock as a single class on all matters submitted to the vote of the common stock (on an as converted basis) and, for purposes of voting only, each share of A-1 Preferred shall be entitled to five times the number of votes per common share to which it would otherwise be entitled. Each share of A-1 Preferred shall entitle its holder to one (1) vote in any matter submitted to vote of holders of Preferred Stock, voting as a separate class. The A-1 Preferred, in conjunction with the other series of newly created Preferred Stock of Comstock, also has certain rights requiring consent of the Preferred Stock holders for Comstock to take certain corporate and business actions. The holders will have registration rights with respect to the shares of common stock underlying the A-1 Preferred and also preemptive rights. The foregoing description of the A-1 Preferred and the specific terms of the A-1 Preferred is qualified in its entirety by reference to the provisions of the Series A Securities Purchase Agreement, the Certificate of Designation of Preferences and Rights and Limitations of 7 1/2% Series A-1 Convertible Preferred Stock and the Registration Rights Agreement for the Series A Preferred Stock, which were filed as exhibits to the Company's Current Report on Form 8-K, dated October 20, 2010.

As of December 31, 2010, the Company had investments in corporate debt and equity instruments which had attached warrants that were considered derivative instruments. These warrants have an allocated cost basis of \$400,000 and a fair market value of \$899,000. During the three and six months ended December 31, 2010, the Company had an unrealized gain of \$400,000 and \$441,000, respectively, related to these warrants.

**NOTE 7 - FAIR VALUE MEASUREMENTS**

The fair values of investments in marketable securities are determined by the most recently traded price of each security at the balance sheet date. The fair value of the warrants was determined based upon a Black-Scholes option valuation model.

Financial assets that are measured at fair value on a non-recurring basis and are not included in the tables above include "Other investments in non-marketable securities," that were initially measured at cost and have been written down to fair value as a result of impairment. The following table shows the fair value hierarchy for these assets measured at fair value on a non-recurring basis are as follows:

Assets:	Level 1	Level 2	Level 3	December 31, 2010	Net gain for the six months ended December 31, 2010
Other non-marketable investments	\$ -	\$ -	\$16,972,000	\$16,972,000	\$10,882,000
Assets:	Level 1	Level 2	Level 3	June 30, 2010	Loss for the six months ended December 31, 2009
Other non-marketable investments	\$ -	\$ -	\$6,070,000	\$6,070,000	\$ (917,000)

Other investments in non-marketable securities are carried at cost net of any impairment loss. The Company has no significant influence or control over the entities that issue these investments. These investments are reviewed on a periodic basis for other-than-temporary impairment. The Company reviews several factors to determine whether a loss is other-than-temporary. These factors include but are not limited to: (i) the length of time an investment is in an unrealized loss position, (ii) the extent to which fair value is less than cost, (iii) the financial condition and near term prospects of the issuer and (iv) our ability to hold the investment for a period of time sufficient to allow for any anticipated recovery in fair value.

**RESULTS OF OPERATIONS**

The Company's principal sources of revenue continue to be derived from the investment of its 68.8% owned subsidiary, Portsmouth, in the Justice Investors limited partnership ("Justice" or the "Partnership"), rental income from its investments in multi-family real estate properties and income received from investment of its cash and securities assets. Portsmouth has a 50.0% limited partnership interest in Justice and serves as the managing general partner of Justice. Evon Corporation ("Evon") serves as the other general partner. Justice owns the land, improvements and leaseholds at 750 Kearny Street, San Francisco, California, known as the Hilton San Francisco Financial District (the "Hotel"). The financial statements of Justice have been consolidated with those of the Company.

The Hotel is operated by the Partnership as a full service Hilton brand hotel pursuant to a Franchise License Agreement with Hilton Hotels Corporation. The term of the Agreement is for a period of 15 years commencing on January 12, 2006, with an option to extend the license term for another five years, subject to certain conditions. Justice also has a Management Agreement with Prism Hospitality L.P. ("Prism") to perform the day-to-day management functions of the Hotel.

Until September 30, 2008, the Partnership also derived income from the lease of the parking garage to Evon. Effective October 1, 2008, Justice entered into an installment sale agreement with Evon to purchase the remaining term of the garage lease and related garage assets, and assumed the contract with Ace Parking for the operations of the garage. Justice also leases a portion of the lobby level of the Hotel to a day spa operator. Portsmouth also receives management fees as a general partner of Justice for its services in overseeing and managing the Partnership's assets. Those fees are eliminated in consolidation.

In addition to the operations of the Hotel, the Company also generates income from the ownership and management of real estate. Properties include eighteen apartment complexes, two commercial real estate properties, and two single-family houses as strategic investments. The properties are located throughout the United States, but are concentrated in Texas and Southern California. The Company also has investments in unimproved real property. All of the Company's residential rental properties in California are managed by professional third party property management companies and the rental properties outside of California are managed by the Company. The commercial real estate in California is also managed by the Company.

The Company acquires its investments in real estate and other investments utilizing cash, securities or debt, subject to approval or guidelines of the Board of Directors. The Company also invests in income-producing instruments, equity and debt securities and will consider other investments if such investments offer growth or profit potential.

### **Recent Developments**

On October 20, 2010, as part of a debt restructuring of one of its investments, the Company exchanged approximately \$13,231,000 in notes, convertible notes and debt instruments that it held in Comstock Mining, Inc. ("Comstock" - OTCBB: LODE)) for 13,231 shares (\$1,000 stated value) of newly created 7 1/2% Series A-1 Convertible Preferred Stock (the "A-1 Preferred") of Comstock. Prior to the exchange, those notes and convertible debt instruments had a carrying value of \$1,809,000, net of impairment adjustments. The Company accounted for the transaction as an exchange of its debt securities and recorded the new instruments (A-1 Preferred) received based on their fair value. The Company estimated the fair value of the A-1 Preferred at \$1,000 per share, which was the stated value of the instrument, for a total of \$13,231,000. The fair value of the A-1 Preferred had a similar value to the Series B preferred stock financing (stated value of \$1,000 per share) by which Comstock concurrently raised \$35.7 million in new capital from other investors in October 2010. The Company recorded an unrealized gain of \$11,422,000 related to the preferred stock received as part of the debt restructuring.

On October 31, 2010, Justice Investors entered into an amendment to its Parking Facilities Management Agreement with Ace Parking to extend the term of the agreement for a period of sixty two (62) months, commencing on November 1, 2010 and terminating December 31, 2015, subject to either party's right to terminate the agreement without cause on ninety (90) days written notice. The amendment also modified how an "Excess Profit Fee" to be paid to Ace would be calculated. The amendment provides that, if net operating income ("NOI") from the garage operations exceeds \$1,800,000 but is less than \$2,000,000, then Ace will be entitled to an Excess Profit Fee of one percent (1%) of the total annual NOI. If the annual NOI is \$2,000,000 or higher, Ace will be entitled to an Excess Profit Fee equal to two percent (2%) of the total annual NOI. The prior Excess Profit Fee entitled Ace to receive three percent of NOI in excess of \$150,000.

Effective November 30, 2010, the general and limited partners of Justice Investors entered into an Amended and Restated Agreement of Limited Partnership, which was approved and ratified by more than 97% of the limited partnership interests of Justice. The Partnership Agreement was amended and restated in its entirety to comply with the new provisions of the California Corporations Code known as the "Uniform Limited Partnership Act of 2008". The amendment did not result in any material modifications of the rights or obligations of the general and limited partners.

In November 2010, the Company refinanced its \$1,641,000 adjustable rate mortgage note payable on its 27-unit apartment building for a new 10-year fixed rate mortgage in the amount of \$3,260,000. The interest rate on the new loan

is fixed at 4.85% per annum, with monthly principal and interest payments based on a 30-year amortization schedule. The note matures in December 2020. The Company received net proceeds of approximately \$1,507,000 from the refinancing.

In November 2010, the Company also refinanced its \$3,569,000 adjustable rate mortgage note payable on its 31-unit apartment building for a new 10-year fixed rate mortgage in the amount of \$5,787,000. The interest rate on the new loan is fixed at 4.85% per annum, with monthly principal and interest payments based on a 30-year amortization schedule. The note matures in December 2020. The Company received net proceeds of approximately \$2,078,000 from the refinancing.

**Three Months Ended December 31, 2010 Compared to the Three Months Ended December 31, 2009**

The Company had net income of \$10,546,000 for the three months ended December 31, 2010 compared to a net loss of \$721,000 for the three months ended December 31, 2009. The change is primarily attributable to the significant income generated from investing activities and the increase in income from hotel operations.

The Company had income from hotel operations of \$355,000 for the three months ended December 31, 2010, compared to a loss of \$152,000 for the three months ended December 31, 2009. The following table sets forth a more detailed presentation of Hotel operations for the three months ended December 31, 2010 and 2009.

For the three months ended December 31, 2010, the Hotel generated operating income of \$2,326,000 before interest, depreciation and amortization, on operating revenues of \$9,142,000 compared to operating income of \$1,825,000 before interest, depreciation and amortization, on operating revenues of \$8,368,000 for the three months ended December 31, 2009. The increase in income from Hotel operations is primarily attributable to increases in room, food and beverage, garage and other revenues in the current period, partially offset by an increase in operating expenses due to higher labor costs and increased staffing to improve guest satisfaction.

Room revenues increased by \$227,000 for the three months ended December 31, 2010 compared to the three months ended December 31, 2009 and food and beverage revenues increased by \$384,000 for the same period. The increase in room revenues was primarily attributable to a significant increase in average daily

room rates during the three months ended December 31, 2010 as the Hotel continued to see an increase in higher rated corporate and group business travel, which also resulted in higher in food and beverage revenues. The increase in garage revenues was primarily attributable to increased demand in the area around the Hotel and a modest increase in transient parking rates. The increase in other revenues was primarily attributable group business that either canceled or was less than guaranteed, as well as greater revenues from Internet services.

The following table sets forth the average daily room rate, average occupancy percentage and room revenue per available room ("RevPar") of the Hotel for the three months ended December 31, 2010 and 2009.

Three Months Ended December 31, -----	Average Daily Rate -----	Average Occupancy% -----	RevPar -----
2010	\$186	82%	\$153
2009	\$164	86%	\$141

The operations of the Hotel continued to experience an increase in the higher rated business and group travel segments as the hospitality industry began to see some recovery. As a result, the Hotel's average daily rate increased by \$22 for the three months ended December 31, 2010 compared to the three months ended December 31, 2009. The modest decrease in occupancy of 4% was due to the Hotel being able to reduce the amount of discounted Internet business that it was forced to take in the prior period to maintain occupancy in a very competitive market. As a result, the Hotel was able to achieve a RevPar number that was \$12 higher than the prior period.

During the past year we have seen our management team guide our Hotel through a difficult economic period by taking bold steps to reduce expenses and implement innovative strategies in order to improve operations and enhance our competitiveness in the market. As a result, we believe that the Hotel is now well positioned to take advantage of a recovery in the hotel industry. We will continue in our efforts to upgrade our guest rooms and facilities and explore new and innovative ways to differentiate the Hotel from its competition. Moving forward, we will also focus on cultivating more international business, especially from China, and capturing a higher percentage of corporate and group travel. During the last quarter, we saw continued improvement in business travel. If that trend in the hotel industry continues, it should translate into an increase in room revenues and profitability.

While operating in a challenging economy, real estate operations remained relatively consistent. The Company had real estate revenues of \$3,012,000 for the three months ended December 31, 2010 compared with revenues of \$3,077,000 for the three months ended December 31, 2009. Real estate operating expenses were \$1,594,000 and \$1,499,000 for the comparative periods. Management continues to review and analyze the Company's real estate operations to improve occupancy and rental rates and to reduce expenses and improve efficiencies.

As of December 31, 2010, the Company had listed for sale its 249-unit apartment building located in Austin, Texas and its 132-unit apartment located in San Antonio, Texas. These properties are classified as held for sale on the Company's condensed consolidated balance sheet with the operations of these properties classified under discontinued operations in the condensed consolidated statements of operations. In January 2011, the Company sold one of its held for sale properties, the 132-unit apartment complex located in San Antonio, Texas for \$5,500,000 and received net proceeds of approximately \$2,030,000 after the repayment of the related mortgage note payable of approximately \$3,218,000. The Company will realize an estimated gain on the sale of real estate of approximately \$3,200,000.

The Company had a net gain on marketable securities of \$3,703,000 for the three months ended December 31, 2010 compared to a net gain of \$182,000 for the three months ended December 31, 2009. For the three months ended December 31, 2010, the Company had a net realized gain of \$334,000 and a net unrealized gain of \$3,369,000. For the three months ended December 31, 2009, the Company had a net realized gain of \$4,000,000 and net unrealized loss of \$3,818,000. Gains and losses on marketable securities may fluctuate significantly from period to period in the future and could have a significant impact on the Company's results of operations. However, the amount of gain or loss on marketable securities for any given period may have no predictive value and variations in amount from period to period may have no analytical value. For a more detailed description of the composition of the Company's marketable securities please see the Marketable Securities section below.

The Company may also invest, with the approval of the Securities Investment Committee and other Company guidelines, in private investment equity funds and other unlisted securities, such as convertible notes through private placements. Those investments in non-marketable securities are carried at cost on the Company's balance sheet as part of other investments, net of other than temporary impairment losses. As of December 31, 2010, the Company had net other investments of \$17,871,000. On October 20, 2010, as part of a debt restructuring of one of its investments, the Company exchanged approximately \$13,231,000 in notes, convertible notes and debt instruments that it held in Comstock Mining, Inc. ("Comstock" - OTCBB: LODE)) for 13,231 shares (\$1,000 stated value) of newly created 7 1/2% Series A-1 Convertible Preferred Stock (the "A-1 Preferred") of Comstock. Prior to the exchange, those notes and convertible debt instruments had a carrying value of \$1,809,000, net of impairment adjustments. The Company accounted for the transaction as an exchange of its debt securities and recorded the new instruments (A-1 Preferred) received based on their fair value. The Company estimated the fair value of the A-1 Preferred at \$1,000 per share, which was the stated value of the instrument, for a total of \$13,231,000. The fair value of the A-1 Preferred had a similar value to the Series B preferred stock financing (stated value of \$1,000 per share) by which Comstock concurrently raised \$35.7 million in new capital from other investors in October 2010. The Company recorded an unrealized gain of \$11,422,000 related to the preferred stock received as part of the debt restructuring. During the three months ended December 31, 2010 and 2009, the Company performed an impairment analysis of its other investments and determined that one of its investments had other than temporary impairment and recorded impairment losses of \$310,000 and \$917,000, for each respective period.

Dividend and interest income increased to \$472,000 for the quarter ended December 31, 2010 from \$55,000 for the quarter ended December 31, 2009 primarily as the result of receiving a dividend of \$348,000 from Comstock during the most recent quarter.

The provision for income tax (expense)benefit as a percentage of the income before taxes was lower for the three months ended December 31, 2010 as compared to the three months ended December 31, 2009 primarily due to higher income from Santa Fe during the current period. Consistent with the comparable period, Santa Fe did not record a tax provision related the income as the result of history of net losses.

#### **Six Months Ended December 31, 2010 Compared to the Six Months Ended December 31, 2009**

The Company had net income of \$10,622,000 for the six months ended December 31, 2010 compared to a net loss of \$2,048,000 for the six months ended December 31, 2009. The change is primarily attributable to the significant income generated from investing activities and the increase in income from hotel operations.

The Company had income from hotel operations of \$573,000 for the six months ended December 31, 2010, compared to a loss of \$392,000 for the six months ended December 31, 2009. For the six months ended December 31, 2010, the Hotel generated operating income of \$4,535,000 before interest, depreciation and amortization, on operating revenues of \$18,668,000 compared to operating income of \$3,479,000 before interest, depreciation and amortization, on operating revenues of \$16,898,000 for the six months ended December 31, 2009. The increase in income from Hotel operations is primarily attributable to increases in room, food and beverage, and other revenues in the current period, partially offset by an increase in operating expenses due to higher labor costs and increased staffing to improve guest satisfaction.

Room revenues increased by \$1,010,000 for the six months ended December 31, 2010 compared to the six months ended December 31, 2009 and food and beverage revenues increased by \$614,000 for the same period. The increase in room revenues was primarily attributable to a significant increase in average daily room rates during the six months ended December 31, 2010 as the Hotel began to see an increase in higher rated corporate and group business travel, which also resulted in higher in food and beverage revenues. The increase in other revenues was primarily attributable group business in the last three months that either canceled or was less than guaranteed, as well as greater revenues from Internet services.

The following table sets forth the average daily room rate, average occupancy percentage and room revenue per available room ("RevPar") of the Hotel for the six months ended December 31, 2010 and 2009.

2009	\$160	88%	\$143

The operations of the Hotel continued to experience an increase in the higher rated business and group travel segments as the hospitality industry began to see some recovery. As a result, the Hotel's average daily rate increased

significantly by \$28 for the six months ended December 31, 2010 compared to the six months ended December 31, 2009. The modest decrease in occupancy of 3% was due to the Hotel being able to reduce the amount of discounted Internet business that it was forced to take in the prior period to maintain occupancy in a very competitive market. As a result, the Hotel was able to achieve a RevPar number that was \$18 higher than the prior six month period.

During the past year we have seen our management team guide our Hotel through a difficult economic period by taking bold steps to reduce expenses and implement innovative strategies in order to improve operations and enhance our competitiveness in the market. As a result, we believe that the Hotel is now well positioned to take advantage of a recovery in the hotel industry. Margin interest and trading expenses decreased to \$627,000 for the six months ended December 31, 2009 from \$728,000 for the six months ended December 31, 2009 primarily as the result of the decrease in margin interest expense related to the decrease in the use of margin.

The provision for income tax (expense) benefit as a percentage of the income before taxes was lower for the six months ended December 31, 2010 as compared to the six months ended December 31, 2009 primarily due to significantly higher income from Santa Fe during the current period. ## FINANCIAL CONDITION AND LIQUIDITY

The Company's cash flows are primarily generated from its Hotel operations and general partner fees from Justice. The Company also receives revenues generated from the investment of its cash and marketable securities and other investments. Since the operations of the Hotel were temporarily suspended on May 31, 2005, and significant amounts of money were expended to renovate and reposition the Hotel as a Hilton, Justice did not pay any partnership distributions until the end of March 2007. As a result, the Company had to depend more on the revenues generated from the investment of its cash and marketable securities during that transition period.

The Hotel started to generate cash flows from its operations in June 2006. For the fiscal year ended June 30, 2009, Justice paid a total of \$850,000 in limited partnership distributions, of which the Company received \$425,000. The fiscal 2009 distributions were paid in September 2008, after which the San Francisco hotel market began to feel the full impact of the significant downturn in domestic and international economies that continued throughout fiscal 2009 and 2010. As a result, no Partnership distributions were paid in fiscal 2010. Since only a modest improvement in economic conditions is expected in the lodging industry in calendar 2011, no limited partnership distributions are anticipated in fiscal 2011. The general partners will continue to monitor and review the operations and financial results of the Hotel and to set the amount of any future distributions that may be appropriate based on operating results, cash flows and other factors, including establishment of reasonable reserves for debt payments and operating contingencies.

The new Justice Compensation Agreement that became effective on December 1, 2008, when Portsmouth assumed the role of managing general partner of Justice, has provided additional cash flows to the Company. Under the new Compensation Agreement, Portsmouth is now entitled to 80% of the minimum base fee to be paid to the general partners of \$285,000, while under the prior agreement, Portsmouth was entitled to receive only 20% of the minimum base fee. During the six months ended December 31, 2010 and 2009, the Company received management fees from Justice Investors totaling \$172,000 and \$151,000, respectively.

To meet its substantial financial commitments for the renovation and transition of the Hotel to a Hilton, Justice had to rely on borrowings to meet its obligations. On July 27, 2005, Justice entered into a first mortgage loan with The Prudential Insurance Company of America in a principal amount of \$30,000,000 (the "Prudential Loan"). The term of the Prudential Loan is for 120 months at a fixed interest rate of 5.22% per annum. The Prudential Loan calls for monthly installments of principal and interest in the amount of approximately \$165,000, calculated on a 30-year amortization schedule. The Loan is collateralized by a first deed of trust on the Partnership's Hotel property, including all improvements and personal property thereon and an assignment of all present and future leases and rents. The Prudential Loan is without recourse to the limited and general partners of Justice. The principal balance of the Prudential Loan was \$27,453,000 as of December 31, 2010.

On March 27, 2007, Justice entered into a second mortgage loan with Prudential (the "Second Prudential Loan") in a principal amount of \$19,000,000. The term of the Second Prudential Loan is for 100 months and matures on August 5, 2015, the same date as the first Prudential Loan. The Second Prudential Loan is at a fixed interest rate of 6.42% per annum and calls for monthly installments of principal and interest in the amount of \$119,000, calculated on a 30-year amortization schedule. The Second Prudential Loan is collateralized by a second deed of trust on the Partnership's Hotel property, including all improvements

and personal property thereon and an assignment of all present and future leases and rents. The Second Prudential Loan is also without recourse to the limited and general partners of Justice. The principal balance of the Second Prudential Loan was \$18,137,000 as of December 31, 2010.

Effective April 29, 2010, the Partnership obtained a modification of its \$2,500,000 unsecured revolving line of credit facility with East West Bank (formerly United Commercial Bank) that was to mature on April 30, 2010, and converted that line of credit facility to an unsecured term loan. The Partnership also obtained a waiver of any prior noncompliance with financial covenants and paid a loan modification fee of \$10,000.

The modification provides that Justice will pay the \$2,500,000 balance on its line of credit facility over a period of four years, to mature on April 30, 2014. This term loan calls for monthly principal and interest payments of \$41,000, calculated on a six-year amortization schedule, with interest only from May 1, 2010 to August 31, 2010. Pursuant to the modification, the annual floating interest rate was reduced by 0.5% to the WSJ Prime Rate plus 2.5% (with a minimum floor rate of 5.0% per annum). The modification includes financial covenants written to reflect financial conditions that all hotels are facing. The covenants include specific financial ratios and a return to minimum profitability by June 2011. Management believes that the Partnership has the ability to meet the specific covenants and the Partnership was in compliance with the covenants as of December 31, 2010. As of December 31, 2010 the outstanding balance was \$2,382,000.

Despite the downturns in the economy, the Hotel has continued to generate positive cash flows. While the debt service requirements related to the two Prudential loans, as well as the new term loan to pay off the line of credit, may create some additional risk for the Company and its ability to generate cash flows in the future since the Partnership's assets had been virtually debt free for a number of years, management believes that cash flows from the operations of the Hotel and the garage will continue to be sufficient to meet all of the Partnership's current and future obligations and financial requirements. Management also believes that there is sufficient equity in the Hotel assets to support future borrowings, if necessary, to fund any new capital improvements and other requirements.

In November 2010, the Company refinanced its \$1,641,000 adjustable rate mortgage note payable on its 27-unit apartment building for a new 10-year fixed rate mortgage in the amount of \$3,260,000. The interest rate on the new loan is fixed at 4.85% per annum, with monthly principal and interest payments based on a 30-year amortization schedule. The note matures in December 2020. The Company received net proceeds of approximately \$1,507,000 from the refinancing.

In November 2010, the Company also refinanced its \$3,569,000 adjustable rate mortgage note payable on its 31-unit apartment building for a new 10-year fixed rate mortgage in the amount of \$5,787,000. The interest rate on the new loan is fixed at 4.85% per annum, with monthly principal and interest payments based on a 30-year amortization schedule. The note matures in December 2020. The Company received net proceeds of approximately \$2,078,000 from the refinancing.

The Company has invested in short-term, income-producing instruments and in equity and debt securities when deemed appropriate. The Company's marketable securities are classified as trading with unrealized gains and losses recorded through the consolidated statements of operations.

Management believes that its cash, marketable securities, and the cash flows generated from those assets and from its real estate operations, partnership distributions and management fees, will be adequate to meet the Company's current and future obligations.

## IMPACT OF INFLATION

Hotel room rates are typically impacted by supply and demand factors, not inflation, since rental of a hotel room is usually for a limited number of nights. Room rates can be, and usually are, adjusted to account for inflationary cost increases. Since Prism has the power and ability under the terms of its management agreement to adjust hotel room rates on an ongoing basis, there should be minimal impact on partnership revenues due to inflation. Partnership revenues are also subject to interest rate risks, which may be influenced by inflation. For the two most recent fiscal years, the impact of inflation on the Company's income is not viewed by management as material.

The Company's residential rental properties provide income from short-term operating leases and no lease extends beyond one year. Rental increases are expected to offset anticipated increased property operating expenses.

## CRITICAL ACCOUNTING POLICIES

Critical accounting policies are those that are most significant to the presentation of our financial position and results of operations and require judgments by management in order to make estimates about the effect of matters that are inherently uncertain. The preparation of these condensed financial statements requires us to make estimates and judgments that affect the reported amounts in our consolidated financial statements. We evaluate our estimates on an on-going basis, including those related to the consolidation of our subsidiaries, to our revenues, allowances for bad debts, accruals, asset impairments, other investments, income taxes and commitments and contingencies. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities. The actual results may differ from these estimates or our estimates may be affected by different assumptions or conditions.
