PORTSMOUTH SQUARE, INC.
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

NOTE 1 – BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

The condensed consolidated financial statements included herein have been prepared by Portsmouth Square, Inc. (“Portsmouth” or the “Company”), without audit, according to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in the condensed consolidated financial statements prepared in accordance with generally accepted accounting principles (U.S. GAAP) have been condensed or omitted pursuant to such rules and regulations, although the Company believes the disclosures that are made are adequate to make the information presented not misleading. Further, the condensed consolidated financial statements reflect, in the opinion of management, all adjustments (which included only normal recurring adjustments) necessary for a fair statement of the financial position, cash flows and results of operations as of and for the periods indicated. It is suggested that these financial statements be read in conjunction with the audited financial statements of Portsmouth and the notes therein included in the Company’s Annual Report on Form 10-K for the year ended June 30, 2011. The June 30, 2011 Condensed Consolidated Balance Sheet was obtained from the Company’s Form 10-K for the year ended June 30, 2011.

The results of operations for the three and six months ended December 31, 2011 are not necessarily indicative of results to be expected for the full fiscal year ending June 30, 2012.

As of December 31, 2011, Santa Fe Financial Corporation (“Santa Fe”), a public company, owns approximately 68.8% of the outstanding common shares of Portsmouth Square, Inc. (“Portsmouth” or the “Company”). Santa Fe is a 79.9%-owned subsidiary of The InterGroup Corporation (“InterGroup”), a public company. InterGroup also directly owns approximately 11.8% of the common stock of Portsmouth.

Portsmouth’s primary business is conducted through its general and limited partnership interest in Justice Investors, a California limited partnership (“Justice” or the “Partnership”). Portsmouth has a 50.0% limited partnership interest in Justice and serves as one of the two general partners. The other general partner, Evon Corporation (“Evon”), served as the managing general partner until December 1, 2008 at which time Portsmouth assumed the role of managing general partner. The financial statements of Justice are consolidated with those of the Company.

Justice owns a 543-room hotel property located at 750 Kearny Street, San Francisco California, known as the *Hilton San Francisco Financial District* (the Hotel) and related facilities including a five level underground parking garage. The Hotel is operated by the partnership as a full service Hilton brand hotel pursuant to a Franchise License Agreement with Hilton Hotels Corporation. Justice also has a Management Agreement with Prism Hospitality L.P. (Prism) to perform the day-to-day management functions of the Hotel.

Until September 30, 2008, the Partnership also derived income from the lease of the parking garage to Evon. Effective October 1, 2008, Justice entered into an installment sale agreement with Evon to purchase the remaining term of the garage lease and related garage assets, and assumed the contract with Ace Parking for the operations of the garage. That installment sale agreement was fully paid as of November 30, 2010. Justice also agreed to assume Evon’s contract with Ace Parking Management, Inc. (“Ace Parking”) for the management of the garage and any other liabilities related to the operation of the garage commencing October 1, 2008. The management agreement with Ace Parking was extended for another 62 months, effective November 1, 2010. The Partnership also leases a day spa on the lobby level to Tru Spa. Portsmouth also receives management fees as a general partner of Justice for its services in overseeing and managing the Partnership’s assets. Those fees are eliminated in consolidation.

Due to the temporary closing of the Hotel to undergo major renovations from May 2005 until January 2006 to transition and reposition the Hotel from a Holiday Inn to a Hilton, and the substantial depreciation and amortization expenses resulting from the renovations and operating losses incurred as the Hotel ramped up operations after reopening, Justice has recorded net losses. These losses were anticipated and planned for as part of the Partnership’s renovation and repositioning plan for the Hotel and management considers those net losses to be temporary. The Hotel has been generating positive cash flows from operations since June 2006 and net income is expected to improve in the future, especially since depreciation and amortization expenses attributable to the renovation will decrease

substantially. For the fiscal year ended June 30, 2011, that trend of net losses was reversed as the Company recorded net income from hotel operations of \$710,000. For the six months ended December 31, 2011, that positive trend continued as the Company recorded net income from hotel operations of \$3,152,000. Even in an uncertain economy, management believes that the revenues expected to be generated from the Hotel, garage and the Partnership's leases will be sufficient to meet all of the Partnership's current and future obligations and financial requirements. Management also believes that there is significant equity in the Hotel to support additional borrowings, if necessary.

Basic income (loss) per share is calculated based upon the weighted average number of common shares outstanding during each period. During the three and six months ended December 31, 2011 and 2010, the Company did not have any potentially dilutive securities outstanding.

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2011-04 (ASU 2011-04), "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs (International Financial Reporting Standard)." ASU 2011-04 attempts to improve the comparability of fair value measurements disclosed in financial statements prepared in accordance with U.S. GAAP and IFRS. Amendments in ASU 2011-04 clarify the intent of the application of existing fair value measurement and disclosure requirements, as well as change certain measurement requirements and disclosures. ASU 2011-04 is effective for the Company beginning January 1, 2012 and will be applied on a prospective basis. We do not believe that the adoption of ASU 2011-04 will have a material effect on our consolidated financial statements.

In June 2011, the FASB issued ASU 2011-05, "Presentation of Comprehensive Income." ASU 2011-05 changes the way other comprehensive income ("OCI") appears within the financial statements. Companies will be required to show net income, OCI and total comprehensive income in one continuous statement or in two separate but consecutive statements. Components of OCI may no longer be presented solely in the statement of changes in shareholders' deficit. ASU 2011-05 is effective for the Company beginning January 1, 2012. The adoption of ASU 2011-05 will not impact the measurement of net income or other comprehensive income.

The Company has evaluated subsequent events through the date the condensed consolidated financial statements were issued.

Other investments in non-marketable securities are carried at cost net of any impairment loss. The Company has no significant influence or control over the entities that issue these investments. These investments are reviewed on a periodic basis for other-than-temporary impairment. The Company reviews several factors to determine whether a loss is other-than-temporary. These factors include but are not limited to: (i) the length of time an investment is in an unrealized loss position, (ii) the extent to which fair value is less than cost, (iii) the financial condition and near term prospects of the issuer and (iv) our ability to hold the investment for a period of time sufficient to allow for any anticipated recovery in fair value.

NOTE 6 - SEGMENT INFORMATION

The Company operates in two reportable segments, the operation of the hotel ("Hotel Operations") and the investment of its cash in marketable securities and other investments ("Investment Transactions"). These two operating segments, as presented in the consolidated financial statements, reflect how management internally reviews each segment's performance. Management also makes operational and strategic decisions based on this same information.

Information below represents reporting segments for the three and six months ended December 31, 2011 and 2010, respectively. Operating income (loss) from Hotel operations consists of the operation of the hotel and operation of the garage. Operating income (loss) for investment transactions consist of net investment gain (loss) and dividend and interest income.

NOTE 7 - RELATED PARTY TRANSACTIONS

Certain shared costs and expenses, primarily administrative expenses, rent and insurance are allocated among the Company, the Company's parent, Santa Fe and InterGroup, the parent of Santa Fe, based on management's estimate of the pro rata utilization of resources. For the three months ended December 31, 2011 and 2010, these expenses were approximately \$18,000 for each respective period. For the six months ended December 31, 2011 and 2010, these expenses were approximately \$36,000 for each respective period.

Four of the Portsmouth directors serve as directors of InterGroup. Three of those directors also serve as directors of Santa Fe. The three Santa Fe directors also serve as directors of InterGroup.

During the three months ended December 31, 2011 and 2010, the Company received management fees from Justice Investors totaling \$98,000 and \$93,000, respectively. During the six months ended December 31, 2011 and 2010, the Company received management fees from Justice Investors totaling \$189,000 and \$172,000, respectively. These amounts were eliminated in consolidation.

John V. Winfield serves as Chief Executive Officer and Chairman of the Company, Santa Fe, and InterGroup. Depending on certain market conditions and various risk factors, the Chief Executive Officer, his family, Santa Fe and InterGroup may, at times, invest in the same companies in which the Company invests. The Company encourages such investments because it places personal resources of the Chief Executive Officer and his family members, and the resources of Santa Fe and InterGroup, at risk in connection with investment decisions made on behalf of the Company.

Item 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS AND PROJECTIONS

The Company may from time to time make forward-looking statements and projections concerning future expectations. When used in this discussion, the words “anticipate,” “estimate,” “expect,” “project,” “intend,” “plan,” “believe,” “may,” “could,” “might” and similar expressions, are intended to identify forward-looking statements. These statements are subject to certain risks and uncertainties, such as national and worldwide economic conditions, including the impact of recessionary conditions on tourism, travel and the lodging industry, the impact of terrorism and war on the national and international economies, including tourism and securities markets, energy and fuel costs, natural disasters, general economic conditions and competition in the hotel industry in the San Francisco area, seasonality, labor relations and labor disruptions, actual and threatened pandemics such as swine flu, partnership distributions, the ability to obtain financing at favorable interest rates and terms, securities markets, regulatory factors, litigation and other factors discussed below in this Report and in the Company’s Annual Report on Form 10-K for the fiscal year ended June 30, 2011, that could cause actual results to differ materially from those projected. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as to the date hereof. The Company undertakes no obligation to publicly release the results of any revisions to those forward-looking statements, which may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

RESULTS OF OPERATIONS

The Company's principal business is conducted through its general and limited partnership interest in the Justice Investors limited partnership (“Justice” or the “Partnership”). The Company has a 50.0% limited partnership interest in Justice and serves as the managing general partner of Justice. Evon Corporation (“Evon”) serves as the other general partner. Justice owns the land, improvements and leaseholds at 750 Kearny Street, San Francisco, California, known as the Hilton San Francisco Financial District (the “Hotel”). The financial statements of Justice have been consolidated with those of the Company.

The Hotel is operated by the Partnership as a full service Hilton brand hotel pursuant to a Franchise License Agreement with Hilton Hotels Corporation. The term of the Agreement is for a period of 15 years commencing on January 12, 2006, with an option to extend the license term for another five years, subject to certain conditions. Justice also has a Management Agreement with Prism Hospitality L.P. (“Prism”) to perform the day-to-day management functions of the Hotel.

Until September 30, 2008, the Partnership also derived income from the lease of the parking garage to Evon. Effective October 1, 2008, Justice entered into an installment sale agreement with Evon to purchase the remaining term of the garage lease and related garage assets, and assumed the contract with Ace Parking for the operations of the garage. That installment sale agreement was fully paid as of November 30, 2010. Justice also leases a portion of the lobby level of the Hotel to a day spa operator. Portsmouth also receives management fees as a general partner of Justice for its services in overseeing and managing the Partnership’s assets. Those fees are eliminated in consolidation.

Three Months Ended December 31, 2011 Compared to Three Months Ended December 31, 2010

The Company had net income of \$948,000 for the three months ended December 31, 2011 compared to net income of \$3,387,000 for the three months ended December 31, 2010. The decrease in net income is primarily attributable to the net loss from investing activities partially offset by the significant improvement in the hotel operations during the current quarter.

The Company had net income from hotel operations of \$1,392,000 for the three months ended December 31, 2011, compared to net income of \$403,000 for the three months ended December 31, 2010. That increase in net income is primarily attributable to a \$681,000 decrease in depreciation and amortization expense, as many of the furniture and

fixture improvements from the renovation of the Hotel reached full depreciation during January 2011, and a significant increase in total operating revenues compared to the prior year.

The following table sets forth a more detailed presentation of Hotel operations for the three months ended December 31, 2011 and 2010.

<u>For the three months ended December 31,</u>	<u>2011</u>	<u>2010</u>
Hotel revenues:		
Hotel rooms	\$ 8,098,000	\$ 6,701,000
Food and beverage	1,431,000	1,502,000
Garage	651,000	645,000
Other revenues	232,000	294,000
Total hotel revenues	<u>10,412,000</u>	<u>9,142,000</u>
Operating expenses excluding interest, depreciation and amortization	<u>(7,796,000)</u>	<u>(6,816,000)</u>
Operating income before interest, depreciation and amortization	2,616,000	2,326,000
Interest	(695,000)	(713,000)
Depreciation and amortization	<u>(529,000)</u>	<u>(1,210,000)</u>
Net income from hotel operations	<u>\$ 1,392,000</u>	<u>\$ 403,000</u>

For the three months ended December 31, 2011, the Hotel generated operating income of \$2,616,000 before interest, depreciation and amortization, on total operating revenues of \$10,412,000 compared to operating income of \$2,326,000 before interest, depreciation and amortization, on operating revenues of \$9,142,000 for the three months ended December 31, 2010. The increase in income from Hotel operations is primarily attributable to increases in room revenues in the current quarter, partially offset by an increase in operating expenses due to higher labor costs and increased staffing to improve guest satisfaction as well as greater franchise and management fees which are based on a percentage of revenues.

Room revenues increased by \$1,397,000 for the three months ended December 31, 2011 compared to the three months ended December 31, 2010. The increase in room revenues was primarily attributable to a significant increase in average daily room rates during the current period as the Hotel continued to see an increase in higher rated leisure, corporate and group business travel.

The following table sets forth the average daily room rate, average occupancy percentage and room revenue per available room ("RevPar") of the Hotel for the three months ended December 31, 2011 and 2010.

<u>Three Months Ended December 31,</u>	<u>Average Daily Rate</u>	<u>Average Occupancy %</u>	<u>RevPar</u>
2011	\$190	85%	\$162
2010	\$159	84%	\$134

The operations of the Hotel experienced an increase in the higher rated business and group travel segments in the three months ended December 31, 2011 as the hospitality industry in the San Francisco market continued to show signs of recovery. As a result, the Hotel's average daily rate increased significantly by \$31 for the three months ended December 31, 2011 compared to the three months ended December 31, 2010. The increase in occupancy of 1% was due to increased demand for hotel rooms in San Francisco and the Hotel's ability to capture a greater share of those rooms within its market set. Due to that increased demand, the Hotel was able to reduce the amount of discounted Internet business that it was forced to take in the prior period to maintain occupancy in a very competitive market. As a result, the Hotel was able to achieve a RevPar number that was \$28 higher than the comparative three month period.

During the past year we have seen our management team guide our Hotel through a difficult economic period by taking bold steps to reduce expenses and implement innovative strategies in order to improve operations and enhance our competitiveness in the market. As a result, we were well positioned to take advantage of the gradual recovery that took place in the San Francisco market. We saw a significant improvement in room rates as the Hotel was able to expand its share of higher rated business and leisure travel which increased our operating revenues and profitability. Those results made it possible for Justice Investors to declare its first limited partnership distribution since September 2008 as the Partnership made a total distribution in the amount of \$1,000,000 in December 2011, of which Portsmouth received \$500,000.

We will continue in our efforts to upgrade our guest rooms and facilities and explore new and innovative ways to differentiate the Hotel from its competition. Our new executive lounge on the 26th floor of the Hotel that opened in October 2011 is one of our latest projects designed to enhance the guest experience. We have upgraded our internet connectivity throughout the Hotel and are providing more technological amenities for our guests. We have also made improvements to our restaurant facilities and are currently upgrading the lobby and common areas of the Hotel. We made the Hotel more energy efficient and have enhanced our recycling program to support the concept of a greener world while reducing our operating costs. The Hotel also became a groundbreaker in implementing Hilton's Huanying ("Welcome") program which features a tailored experience for Chinese travelers. We have also taken important steps to further develop our ties to the local Chinese community and the City as part of being a good corporate citizen and to promote new business.

Moving forward, we will continue to focus on cultivating more international business, especially from China, and capturing a greater percentage of high rated business, leisure and group travel. During the last twelve months, we have seen improvement in business and leisure travel. If that trend in the San Francisco market and the hotel industry continues, it should translate into an increase in room revenues and profitability. However, like all hotels, it will remain subject to the uncertain domestic and global economic environment.

The Company had a net loss on marketable securities of \$157,000 for the three months ended December 31, 2011 compared to a net gain on marketable securities of \$1,395,000 for the three months ended December 31, 2010. For the three months ended December 31, 2011, the Company had a net realized gain of \$39,000 and a net unrealized loss of \$196,000. For the three months ended December 31, 2010, the Company had a net realized loss of \$40,000 and a net unrealized gain of \$1,435,000. Gains and losses on marketable securities may fluctuate significantly from period to period in the future and could have a significant impact on the Company's results of operations. However, the amount of gain or loss on marketable securities for any given period may have no predictive value and variations in amount from period to period may have no analytical value. For a more detailed description of the composition of the Company's marketable securities see the Marketable Securities section below.

During the three months ended December 31, 2011, the Company had an unrealized loss of \$43,000 related to other investments compared to an unrealized gain of \$3,823,000 for the three months ended December 31, 2010. The significant difference is due to an unrealized gain of \$3,686,000 related to the Company's Comstock investment in the prior year comparable quarter. Comstock had undergone a restructuring which resulted in the unrealized gain for the Company.

During the three months ended December 31, 2011 and 2010, the Company performed an impairment analysis of its other investments and determined that one of its investments had an other than temporary impairment and recorded impairment losses of \$91,000 and \$113,000, for each respective period.

The Company consolidates Justice (Hotel) for financial reporting purposes and is not taxed on its 50% non-controlling interest in the Hotel. The income tax expense during the three months ended December 31, 2011 and 2010 represents the income tax effect on the Company's pretax income which include its share in net income (loss) of the Hotel (i.e., 50%). The significant tax expense during the quarter ended December 31, 2010 primarily resulted from the significant unrealized gain of \$3,823,000 from other investments and \$1,395,000 net gain from marketable securities.

Six Months Ended December 31, 2011 Compared to Six Months Ended December 31, 2010

The Company had net income of \$1,344,000 for the six months ended December 31, 2011 compared to net income of \$3,440,000 for the six months ended December 31, 2010. The decrease in net income is primarily attributable to the net loss from investing activities partially offset by the significant improvement in the hotel operations during the six months ended December 31, 2011.

The Company had net income from hotel operations of \$3,152,000 for the six months ended December 31, 2011, compared to net income of \$671,000 for the six months ended December 31, 2010. That increase in net income is primarily attributable to a \$1,403,000 decrease in depreciation and amortization expense, as many of the furniture and fixture improvements from the renovation of the Hotel reached full deprecation during January 2011, and a significant increase in total operating revenues compared to the prior year.

The following table sets forth a more detailed presentation of Hotel operations for the six months ended December 31, 2011 and 2010.

<u>For the six months ended December 31,</u>	<u>2011</u>	<u>2010</u>

For the six months ended December 31, 2011, the Hotel generated operating income of \$5,580,000 before interest, depreciation and amortization, on total operating revenues of \$21,521,000 compared to operating income of \$4,535,000 before interest, depreciation and amortization, on operating revenues of \$18,668,000 for the six months ended December 31, 2010. The increase in income from Hotel operations is primarily attributable to increases in room, food and beverage, and other revenues in the current year, partially offset by an increase in operating expenses due to higher labor costs and increased staffing to improve guest satisfaction as well as greater franchise and management fees which are based on a percentage of revenues.

Room revenues increased by \$2,579,000 for the six months ended December, 2011 compared to the six months ended December 31, 2010 and food and beverage revenues increased by \$122,000 for the same period. The increase in room revenues was primarily attributable to a significant increase in average daily room rates during the current period as the Hotel began to see an increase in higher rated leisure, corporate and group business travel, which also resulted in higher in food and beverage revenues. Garage revenues increased by \$101,000 due the higher demand for outside parking during the current period.

The following table sets forth the average daily room rate, average occupancy percentage and room revenue per available room ("RevPar") of the Hotel for the six months ended December 31, 2011 and 2010.

<u>Six Months Ended December 31,</u>	<u>Average Daily Rate</u>	<u>Average Occupancy %</u>	<u>RevPar</u>
2011	\$190	88%	\$168
2010	\$163	87%	\$142

The operations of the Hotel experienced an increase in the higher rated business and group travel segments in the six months ended December 31, 2011 as the hospitality industry in the San Francisco market continued to show signs of recovery. As a result, the Hotel's average daily rate increased significantly by \$27 for the six months ended December 31, 2011 compared to the six months ended December 31, 2010. The increase in occupancy of 1% was due to increased demand for hotel rooms in San Francisco and the Hotel's ability to capture a greater share of those rooms within its market set. Due to that increased demand, the Hotel was able to reduce the amount of discounted Internet business that it was forced to take in the prior period to maintain occupancy in a very competitive market. LIQUIDITY AND SOURCES OF CAPITAL

The Company's cash flows are primarily generated from its Hotel operations, and general partner management fees and limited partnership distributions from Justice Investors. The Company also receives cash generated from the investment of its cash and marketable securities and other investments.

Following the temporary suspension of operations in May 2005 for major renovations, the Hotel started, and continues, to generate positive cash flows from its operations. As a result, Justice was able to pay some limited partnership distributions in fiscal years 2008 and 2009. However, due to the significant downturn in the San Francisco

hotel market beginning in September 2008 and the continued weakness in domestic and international economies, no Partnership distributions were paid in fiscal 2011 and 2010. During such periods, the Company had to depend more on the revenues generated from the investment of its cash and marketable securities and from its general partner management fees. Since we have seen significant improvement in the operations of the Hotel, and the San Francisco market in general, Justice was in a position to pay a limited partnership distribution in December 2011 in an aggregate amount of \$1,000,000, of which Portsmouth received \$500,000. The general partners of Justice will continue to monitor and review the operations and financial results of the Hotel and to set the amount of any future distributions that may be appropriate based on operating results, cash flows and other factors, including establishment of reasonable reserves for debt payments and operating contingencies.

The new Justice Compensation Agreement that became effective on December 1, 2008, when Portsmouth assumed the role of managing general partner of Justice, has provided additional cash flows to the Company. Under the new Compensation Agreement, Portsmouth is now entitled to 80% of the minimum base fee to be paid to the general partners of \$285,000, while under the prior agreement, Portsmouth was entitled to receive only 20% of the minimum base fee. As a result of that new agreement and the increase in Hotel gross revenues in the current period, total general partner fees paid to Portsmouth for the six months ended December 31, 2011 increased to \$189,000, compared to \$172,000 for the six month period ended December 31, 2010.

To meet its substantial financial commitments for the renovation and transition of the Hotel to a Hilton, Justice had to rely on borrowings to meet its obligations. On July 27, 2005, Justice entered into a first mortgage loan with The Prudential Insurance Company of America in a principal amount of \$30,000,000 (the "Prudential Loan"). The term of the Prudential Loan is for 120 months at a fixed interest rate of 5.22% per annum. The Prudential Loan calls for monthly installments of principal and interest in the amount of approximately \$165,000, calculated on a 30-year amortization schedule. The Loan is collateralized by a first deed of trust on the Partnership's Hotel property, including all improvements and personal property thereon and an assignment of all present and future leases and rents. The Prudential Loan is without recourse to the limited and general partners of Justice. The principal balance of the Prudential Loan was \$26,891,000 as of December 31, 2011.

On March 27, 2007, Justice entered into a second mortgage loan with Prudential (the "Second Prudential Loan") in a principal amount of \$19,000,000. The term of the Second Prudential Loan is for 100 months and matures on August 5, 2015, the same date as the first Prudential Loan. The Second Prudential Loan is at a fixed interest rate of 6.42% per annum and calls for monthly installments of principal and interest in the amount of \$119,000, calculated on a 30-year amortization schedule. The Second Prudential Loan is collateralized by a second deed of trust on the Partnership's Hotel property, including all improvements and personal property thereon and an assignment of all present and future leases and rents. The Second Prudential Loan is also without recourse to the limited and general partners of Justice. The principal balance of the Second Prudential Loan was \$17,865,000 as of December 31, 2011.

Effective April 29, 2010, the Partnership obtained a modification of its \$2,500,000 unsecured revolving line of credit facility with East West Bank that was to mature on April 30, 2010, and converted that line of credit facility to an unsecured term loan. The modification provides that Justice will pay the \$2,500,000 balance on its line of credit facility over a period of four years, to mature on April 30, 2014. This term loan calls for monthly principal and interest payments of \$41,000, calculated on a nine-year amortization schedule, with interest only from May 1, 2010 to August 31, 2010. Pursuant to the modification, the annual floating interest rate was reduced by 0.5% to the Wall Street Journal Prime Rate plus 2.5% (with a minimum floor rate of 5.0% per annum). The modification provides for new financial covenants that include specific financial ratios and a return to minimum profitability after June 30, 2011. Management believes that the Partnership has the ability to meet the specific covenants and the Partnership was in compliance with the covenants as of December 31, 2011. As of December 31, 2011, the interest rate was 5.75% and the outstanding balance was \$2,017,000.

Despite the downturns in the economy, the Hotel has continued to generate positive cash flows. While the debt service requirements related to the two Prudential loans, as well as the term loan to pay off the line of credit, may create some additional risk for the Company and its ability to generate cash flows in the future, management believes that cash flows from the operations of the Hotel and the garage will continue to be sufficient to meet all of the Partnership's current and future obligations and financial requirements. Management also believes that there is sufficient equity in the Hotel assets to support future borrowings, if necessary, to fund any new capital improvements and other requirements.

The Company has invested in short-term, income-producing instruments and in equity and debt securities when deemed appropriate. The Company's marketable securities are classified as trading with unrealized gains and losses recorded through the consolidated statements of operations.

Management believes that its cash, marketable securities, and the cash flows generated from those assets and from partnership distributions and management fees, will be adequate to meet the Company's current and future obligations

IMPACT OF INFLATION

Hotel room rates are typically impacted by supply and demand factors, not inflation, since rental of a hotel room is usually for a limited number of nights. Room rates can be, and usually are, adjusted to account for inflationary cost increases. Since Prism has the power and ability under the terms of its management agreement to adjust hotel room rates on an ongoing basis, there should be minimal impact on partnership revenues due to inflation. Partnership revenues are also subject to interest rate risks, which may be influenced by inflation. For the two most recent fiscal years, the impact of inflation on the Company's income is not viewed by management as material.

CRITICAL ACCOUNTING POLICIES

Critical accounting policies are those that are most significant to the portrayal of our financial position and results of operations and require judgments by management in order to make estimates about the effect of matters that are inherently uncertain. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts in our consolidated financial statements. We evaluate our estimates on an on-going basis, including those related to the consolidation of our subsidiaries, to our revenues, allowances for bad debts, accruals, asset impairments, other investments, income taxes and commitments and contingencies. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities. The actual results may differ from these estimates or our estimates may be affected by different assumptions or conditions.
